

# SENTRAL CRYPTO WHITEPAPER

## Introduction

Born from the collective experience of retail traders, SENTRAL CRYPTO emerges as a beacon of trust in the volatile crypto space. Our journey began by acknowledging the challenges faced by retail traders, including market manipulation, false promises, and the devastating impacts of scams. These shared experiences ignited our mission: to create a transparent, community-driven venture capital platform designed to empower retail traders.

## Vision

SENTRAL CRYPTO envisions a future where retail traders can access professional-grade investment opportunities in a secure and transparent environment. We aim to redefine the crypto investment landscape by prioritizing fairness, transparency, and community-driven decision-making.

## Mission

Our mission is to:

- Provide retail traders with access to professional-grade investment opportunities.
- Build a transparent ecosystem where every decision, investment, and outcome is publicly accessible.
- Foster a community-driven platform that prioritizes the needs of retail traders.
- Combat fraud and misinformation in the crypto space through education and transparency.

## The Problem

Retail traders often face:

1. **Complexity of Crypto Markets:** Navigating the crypto space can be overwhelming due to technical jargon, market volatility, and lack of reliable information.
2. **Losses from Scams:** Many traders fall victim to fraudulent schemes and poorly managed investments.
3. **Exclusivity of Investment Opportunities:** Professional-grade investment options are often reserved for large investors, excluding retail traders.

## Our Solution

SENTRAL CRYPTO addresses these challenges by:

- **Creating Accessibility:** Offering retail traders access to professional-grade investments traditionally reserved for institutional investors.
- **Ensuring Transparency:** Every investment, decision, and outcome is shared publicly to foster trust and accountability.
- **Building a Community:** Establishing a collaborative ecosystem where retail traders can share knowledge, experiences, and opportunities.

## Token Allocation

The total supply of SENTRAL CRYPTO (“SENCRO”) tokens is 1,000,000,000. The allocation is as follows:
